Discover our range of valves !

Valves Systems

Built for the most challenging manufacturing environments, DOSIS UK valve systems are renowned for their accurate and reliable fluid dispensing controls.

Ideal for assembly lines, our dispensing valves allow you to perform different types of applications without interruption, without drop formation and without maintenance :

Types of valves

Two- Component
Front Closing
Film
Vacuum System
Micro Valve
Front Closing
Metering Valve
Jetting (projection)
Auger valve

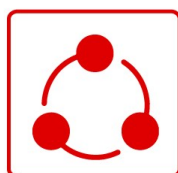

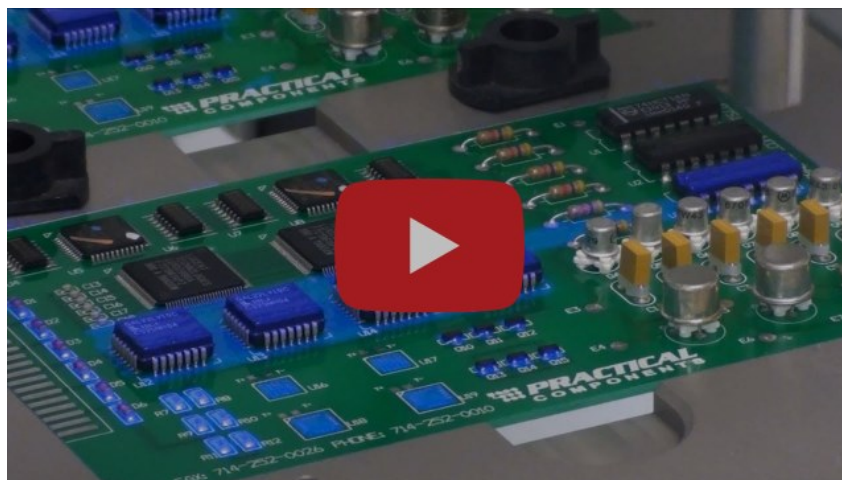

Applications

Micro Dots
Lines
Potting
Gluig
Spraying
Coating
3D printing
Dispensing
Gasketing
Thermal interface materials
Bonding
Dam & Fill
Encapsulation & Glob Top
Optical Bonding
Surface mount adhesive /
Solder / Paste
Underfill
